

DOGWOOD PALYNOCCHKA

Agrofruktservice LLC, Transcarpathia, Ukraine

eCommerce # 237908 | 42.0% alc./vol. | 500mL | \$39.95 *subject to change

"Palynochka" is a unique and authentic drink that has absorbed all the generosity of orchards and the sun of Transcarpathia. Pleasant fruity aroma with dogwood notes. Rich, but at the same time mild and warm taste with a piquant berry sourness in the aftertaste.

Distillery:

Persha Zakarpats'ka Palyncharnya owned by Agrofruktservice - modern distillery in the Transcarpathian region revives "palink brewing" using natural products, pure as nature itself. Fruits and berries grown in the gardens of Transcarpathia are used. Company cooperates in staff training of with Hungarian Palinkari Association.

Distillation:

Only fresh and ripe quince fruits are selected for production. 7 to 9 kg of ripe fruits are used for one bottle. At the end of fermentation, a multi-stage distillation process begins using copper distillation pots and a four-stage distillation column. The resulting distillate "rests" in steel vats for ~30-90 days to acquire a pronounced fruity aroma. Aged in oak for over 6 month.

Serving suggestion and food pairing: Serve at ~18°C as digestive. Great pairing with fruits, cheese, nuts and fried meat dishes. Can be added to cocktails.
