*Of great intensity, its aromas of ripe white fruits stand out in addition to citric and fresh fruits. It begins strong and robust, with a direct attack on the palate, in addition to notes of orange zest and toasted dry fruits. Very voluptuous, it offers a delicious acidity in the end.*

### Distillery & Terrior:

Compañía Pisquera de Chile started in 2005 by famous Chilean alcohol group Compañía Cervecerías Unidas (CCU) to focus pisco based products, it became the largest in Pisco (and Pisco drinks) exports (2020): 40% Market Share by Volume 31% Market Share by Value.

Pisco is made from the grapes grown in the Elqui Valley, in a sunny climate with very low rainfall. The characteristics of the terrior give the grapes unique properties, including high sugar content and a bright aroma.

### Productions:

Its main characteristic is that its heart (or body) is subject to a more slowly and careful process since it undergoes a second distillation, which allows achieving this so valued and transparent Pisco.
