Since olden times the most delicious homemade drinks were made on the basis of malt, and always - rye. Particularly in this component the secret of the unique taste and aroma of freshly baked rye bread is hidden. Creators of Pervak Homemade strictly followed the old revived recipe using fragrant alcohol rye malt and rye infusion. That's the way the real homemade drink is prepared, with its mild flavour and sweet scented bread aftertaste.

Pervak has a true taste of home.
